

**Drinagh is currently recruiting a weighbridge/production operator to join our team in the Feed Mill in Drinagh Central**

The core responsibilities of this role will include operating the computerised weighbridge and dispatching bulk feed in line with company policies and UFAS quality assurance requirements. Secondary responsibilities will include working as part of the production team.

The ideal candidate would possess the following skills:

- Effective communication skills for interacting with drivers, production team, and customers.
- Providing clear, precise information to drivers and other relevant personnel.
- Proficiency in computer software systems for process control.
- Strong logistical and multi-tasking abilities.
- Ability to work on own initiative.
- Willingness to work in a team environment.

This is a permanent, full-time role.

**Please email cover letter and CV to [info@drinagh.com](mailto:info@drinagh.com) on or before Friday, 5th April 2024.**
