

**Drinagh is currently recruiting a  
Production Operator  
to join our team in the Feed Mill in Drinagh Central**

**The core responsibilities of this role will include operating the computerised process control to oversee blending and cubing processes in line with company policies and UFAS quality assurance requirements.**

The ideal candidate would possess the following skills:

- Effective communication skills for interacting with production team, suppliers and customers.
- Proficiency in computer software systems for process control.
- Strong logistical and multi-tasking abilities.
- Ability to work on own initiative.
- Willingness to work flexibly and in a team environment.

Training will be provided on job but previous experience will be of benefit along with a keen interest in animal feed manufacturing.

**This is a permanent, full-time role.**

**Please email cover letter and CV to [info@drinagh.com](mailto:info@drinagh.com) on or before  
Monday, 10th February 2025.**
